FAIR ACRES SULTAN 354154

INTRODUCTORY ANNOUNCEMENT.

In presenting to you this catalog of my 8th annual sale of Shorthorn cattle, I extend you a personal invitation to come and spend the day with us. We will do our best to entertain you, and make you feel it a day well spent. We want all our old friends and customers and lovers of Shorthorns to be here one day. That is one reason of having the sale. We want you to look the cattle over, and tell us whether we have accomplished anything from a breeder's standpoint. We have honestly tried to select cattle that will merit your approval. The five bulls are selected for this sale to please the most critical judges. The cows are of uniform type, the very best breeding, some will have calves at foot, the rest will be in calf to Fair Acre's Sultan, Avondale's Choice, or Watonga Searchlight.

The 17 head of heifers are all bred but one, and when you stop to consider their breeding and the noted sires they are sired by, such as Cumberland's Best, Roberta's Goods, Fair Knight 2d, Sultan's Crown, White Sultan, Mystic Chief and Missie's Governor, and coming from the very best Scotch families and then bred to such bulls as Fair Acre's Sultan, Avondales Choice, and Watonga Searchlight. We feel that they have a right to attract the attention of the very best breeders in the United States. It will be a good place to start a foundation herd.

I will do my best to have the cattle in good breeding condition, and present them to you in a respectable way, and I know you will appreciate it.

And if you don't say so when you see them that they are as good or better than any you ever saw in one sale, I will be disappointed. Actions speak louder than words. If we can get this kind of blood scattered over the southwest we will soon make an Iowa out of Oklahoma.

Yours for a good sale,

H. C. LOOKABAUGH.

From right to left Lord's Violet 180943 undefeated in class 1914. Isabella 149202, Grand Champion and sweepstakes over the four beef breeds, Nebraska State Fair, Lincoln, 1914. Dale's Jealousy 180942, Grand Champion at Utah State Fair, Salt Lake and Texas State Fair; Dallas, 1915.

BUYING MY FIRST BULL.

After the sale I was back in the stall behind him looking him over when Col. Bob and some of his friends came along. Had I seen them before they saw me I would have gotten out of there, but I didn't see Col. Bob until he said, "Well, Lookabaugh, how do you like your bull?"

"All right," I answered, "With the exception of those horns."

"Oh!" he retorted, "You won't eat those horns." Then he added, "Look here, Lookabaugh, you told me you had a bunch of grade cows at home that you wanted to raise feeding steers from."

"Yes," I answered, "That's it."

"Well," he said, "You'll dehorn those steers, won't you?"

I answered, "Yes Sir."

"Then, what difference with the steers will the horns on this bull make?"

"I thought for a moment and answered, "None."

"But," he added, "You have as good Scotch blood in this bull as Rockwood bought in that \$400 roan bull."

I saw the point and thanked him. When I brought the bull home everybody was proud to have a bull like that in the community. I turned him out in the pasture and fed him some, night and morning, but he shrank somewhat and along in July the hot winds were blowing, price of cattle had dropped away low, and I went to the pasture and found my bull looking a little worse. I thought to myself "What a fool I was (and I had been told this by a good many) to pay a hundred dollars for one animal when I could have bought ten heifers for that amount." But realizing that my investment had been the result of conclusions I had reached after a long siege of examination, and had been outlined in my years work at the time of my invoice, I soon dropped the thought and went home. Early the next spring when his calves began to appear I began feeling different and by July of that year the early calves began to get so big that I simply thought they were fine. I would look at them and say to myself, "My, if they could just keep on growing like that, wouldn't they be good ones by the time they were two years old?" I did not know at that time that a shorthorn calf does not begin to grow right fast until he is four months old.

Well, by August a good many of my friends would come in on Sunday and want to go down and see the calves. I, of course, felt proud of them and while we were looking at them each friend would pick out a bull that he wanted and I would refuse, saying that I had raised these calves to make feeding steers. "But," they would say, "We will give you for these calves whatever they will be worth fat as steers." Of course, I wasn't hard to persuade, feeling a little then that it really was my duty to help improve the stock of our community as much as I could. I then decided that if they wanted a few of them for bulls I would spare them thinking that the next year or two I could quit selling and not only have the calves from my own bulls, but also the calves from the bulls I had been selling. I had already figured out that I wanted to feed 30 head of two-year-old steers past each winter and I thought I ought to put them in the feed lot at an average of one thousand pounds at that age.

However, to my surprise in the fall when I collected 60 calves, quite a few of which were July and August calves, on the 15th day of October the 60 head averaged 515 lbs. I sorted out 40 head of the strongest and oldest ones. They averaged 650 lbs. This completely surprised me, but I did not think much of it until the next spring when I weighed out the last bulls and they averaged from 750 to 900 lbs. This did surprise me, as they had had only one-half gallon of grain and alfalfa hay twice a day. I said to my wife, "This is too good to keep. The man would be selfish to have this experience and then not try to impart it to others."

That spring, while in Watonga one day, a gentleman asked me if I had any good bulls to sell. I told him yes, some young ones, but the old ones were all gone. He said, "I heard you had some good bulls and I have been trying to find a registered bull for some time, but didn't know where to look for him."

I told him that my bulls weren't registered but that they were from a registered sire. He looked at me a little funny and said, "I've got good grades at home." This embarrassed me some and made me think again. I decided immediately that I could raise still better calves if I would buy registered cows, so I hustled out and bought five or six one hundred dollar cows, as they were cheap then.

The next fall their bull calves were the first out of the lot to sell for one hundred dollars apiece. The grade bulls I had been selling for forty and fifty dollars. Then I said to myself "These calves are far better and I am much prouder of these cows than I was of my grade cows. The forty dollar cow brings a forty dollar calf, the one hundred dollar cow brings a

one hundred dollar calf. It's easy to see there is more profit in the one hundred dollar calf, for the feed bill is the same. Consequently I decided to sell all my grade cattle and buy one hundred dollar, registered cows, that at that time I thought were the best I could buy, but before I had been out long I ran across a good heifer. She was made a good bit like a box car and I was so completely taken up with her that I could hardly leave. I asked the man his price and he said \$235. I said to him, "Why Jim, you're crazy." He laughed and said he had paid nearly that amount for her. Well, I thought along different lines, and as I already had a number of what I thought were good cattle I decided that I would just sink that much money to have one good one for my friends to look at when they came in, far from expecting to realize a profit on the investment. A short time after that the heifer brought a calf. It was so good that my friends wanted me to take it to Enid to the show. I did so while it was yet very young and it won first in a class of three junior calves, the other two belonging to Fred Stoddard of Verden, Kan., and C. S. Nevius of Chiles, Kan. The cow won second in the Oklahoma Class and had we known how to have shown her the judge said we might have won first. This pleased us, and later that year this calf was Junior Champion Female at the State Fair of Oklahoma and the Colorado State Fair at Pueblo, Col. Then we had been offered \$400 for her. We compared it with our other purchases and found that the profit was still greater, and the enjoyment of having still better stock was also greater. We began to study the reason and to talk to old reliable breeders. We found that they all advised us the same—the better cattle you buy the more you will be pleased—and one or two of them had the audacity to say they would sooner have one one-thousand-dollar cow than ten one-hundred-dollar cows.

We asked them why there was a difference in these cattle. They explained to us that the difference was in their breeding. "But," I would say, "They are all registered cattle aren't they?"

"Yes," they would answer, "but there is considerable difference in registered cattle, some are pure Scotch from the very best producing Scotch families and others are Scotch-Topped, and some haven't even any Scotch about them."

After a long investigation and many nights of hard thinking I came to the conclusion that life was too short for me to try to have the best unless I succeeded in getting some females from some of these best Scotch producing families, so I set out to find what ones they were, and I found that whenever a family was noted it was one of the best and the reason was be-

cause it was good that it had become noted, for the offsprings from that family had made themselves a reputation from their individuality and superiority, and invariably when I would find the animal that just suited me, the breeder would ask from five to eight hundred dollars, and would end up by saying, "Why that is one of the Violets, or the Lavenders, or the Jealousies, Clippers, Lovelys, Miss Ramsdons, Golden Ladys, Victorias, Missies, the Butterflies, or the Acorns, and so on. In other words, I found that the best breeding came higher; but I was not discouraged at that, and after I had priced a large number of shorthorns in the best herds in the United States I then went back through, selecting the females I preferred, regardless of price—a great many times running into a hornet's nest with the breeders, because they did not want to let this kind go, and some would say, "I had no idea of your buying these on account of their being so high-priced."

Now, by this time I had drifted from the reds to the roans. The breeders would laugh at me and say, "You'll get away from that."

"No," I would say, "I know what I want and I want that or nothing." But in less than a year, after I had brought these cattle home and they had dropped me a number of calves, some of which were white, some red and some roan, having them all together in one pasture on the north side of the house, when I come and went to town, I could always get a look at them, and learned to like that picture of reds, whites and roans on a green pasture. One afternoon when coming from town I noticed that the whites and roans were all in behind the sand hills, leaving only the reds in sight. I kept looking rather disappointedly for the whites and roans, and it occurred to me that I had thought I liked all reds, or all roans. I had changed before I knew it, and after all, when we stop to think, a flower garden would not be pretty if it were all one color.

At this stage of the game I was receiving many conscientious remarks from my best friends, and some of them were bankers, advising me to be careful, that they were afraid that I could not succeed in raising good cattle—high-priced cattle—in this new country. But I had studied this more than they thought. I had learned from experience just what this stuff would do and why it would do it. There was no venture on my part, simply forming conclusions that I had come to from years of study and hard experience.

Now, in order to demonstrate to the people of the State and of the Southwest that we have a cattle country and that we can grow them just as big and just as good as they can in

any state in the Union, I decided it would be necessary to exhibit our cattle at the different state fairs, because there were so many farmers in Oklahoma, and the Southwest, who had the honest opinion (the same as my friends who had advised me to be careful that they were afraid I could not succeed) that such good stock could not be raised in the Southwest. They are not so numerous today.

Well, we have not gone so far as we could have gone, yet we feel entirely satisfied with our showing career, and have been able to clearly demonstrate the fact that we can and do grow as good cattle in Oklahoma and the Southwest as they can grow in the northern states. For this alone—for the simple reason of trying to convince the Southwestern Farmer that he not only needs livestock with his grain farming, but needs GOOD livestock, we have been showing our cattle at St. Joseph, Mo., Lincoln, Nebraska, Hutchinson and Topeka, Kansas, Oklahoma City and Muskogee, Fort Worth, Texas, Jackson, Mississippi, Shreveport, Louisiana, Meridian, Mississippi and Hot Springs, Arkansas.

Words are not sufficient in my vocabulary to entirely explain how sincerely we have appreciated the kind words from many friends that we have heard. I am in this business because I like it; because I feel it is my duty as a citizen to be of all the benefit possible to my family, my community and my country. It is not so hard to make money as it is to make it without injuring your fellowman. There is a satisfaction and a pleasure in this business that I have failed to find in others that I once thought of considering. I am in it to stay; and if I have a customer that is dissatisfied, I want to know it, for I believe in the goods I am selling and want to back them up.

H. C. LOOKABAUGH,

Proprietor Pleasant Valley Stock Farm.

Watonga, Okla.

WE BOUGHT A REAL BULL THIS TIME

GENERAL INFORMATION.

Location

Watonga is located on the Rock Island railroad, 61 miles southwest of Enid, 65 miles north west of Oklahoma City, 87 miles south of Alva and 135 miles north of Waurika.

LOCATION OF FARM: Pleasant Valley Stock Farm is located 3½ miles north of Greenfield, 2 miles east and 4½ miles south of Watonga, 2 miles west and 10 miles north of Geary. No postponement on account of weather.

Entertainment

Free transportation to and from the farm. Those coming from a distance, will stop at the Hoter Fisher, at Watonga, as my guests.

Guarantee

All animals of breeding age are guaranteed breeders. Those with calves at foot or heavy in calf, are considered breeders, and no further guarantee given. All animals that do not prove breeders, can be returned in good condition, and after a reasonable trial, if we cannot get them to breed, an animal of equal value will be given in their place. Any animals that prove not to be with calf may be returned and we will breed them free of charge, owner to pay transportation expenses. All animals at owner's risk,, after bid off.

TERMS

Cash or a bankable note bearing 10 percent interest with approved security.

Shipping Directions

Stock to be shipped will be loaded on board the cars, free of charge. Purchasers will please fill out the shipping instructions in the back of the catalog and leave it with the clerk at the time of settlement.

Train Service

Train number 728 north from Oklahoma City, arrives at Watonga at 9:30 a. m. daily. Train number 704 north from Waurika and Anadarko, arrives at Watonga at 1:40 p. m. Train number 728 south from Alva, arrives at Watonga at 7:01 p. m. Train number 703 south from Euid, arrives at Watonga at 1:15 p. m. Parties coming from Oklahoma City should leave on the 6:55 train, arriving at Watonga at 9:30. Parties coming from Kansas City should leave on the 7:35 train in the evening. Direct connections to Watonga. You will arrive the next morning at 9:30. Parties from Little Rock Arkansas, should leave Little Rock on the afternoon train at 1:50 the afternoon before the sale, and will arrive at Watonga at 9:30 the next morning. Parties from Fort Worth leave on the evening Rock Island train. Direct connections to Watonga, arrive at 9:30 the next morning.

Mail Bids

We would much sooner have you here in person, but if it is impossible for you to be here, you can send your bids to either one of the auctioneers, or the field men, or to Frank Harding, Secretary of the American Shorthorn Breeder's Association, in our care, and we assure you, they will be handled with care and good judgment.

Auctioneers

Col. Floid Hurt of Kingfisher, Col. Ed. Herriff of Apache, Col. Bert Odell of Eagle City.

Attend The Shorthorn Sale Circuit.

J. R. Whisler sells Shorthorns at Watonga on March 20. A. B. Campbell sells Shorthorns at Geary on March 21. W. H. B. Dunlap sells Shorthorns at Kingfisher on March 22. H. C. Lookabaugh sells Shorthorns at Watonga on March 23. Blaine County Association sells Shorthorns, Percheons, Jacks and Poland Chinas on March 24. Convenient train service over the entire circuit.

FAIR ACRES SULTAN

Fair Acres Sultan is probably the greatest Shorthorn bull that ever came to the southwest. Sired by the justly celebrated Whitehall Sultan and out of Snowbird, one of F. W. Harding's great breeding cows. This brother of Avondale when properly mated will bring to Oklahoma breeders some wonderfully prepotent blood that through Avondale made the herd of Carpenter and Ross of Ohio, one of the greatest breeding herds in America. While Fair Acres Sultan is perhaps not the equal of his famous brother in individual merit, yet as a sire of outstanding individuals of merit in the herd of J. Kilgore, he made a decided sensation. The "get of Sire," and "the calf herd" exhibited by Mr. Kilgore in 1914, the get of Fair Acres Sultan, and never defeated that year though shown in the strongest company, is ample evidence of the prepotency of this great bull as a sire of surpassing merit when mated with females suitable for such a union.

The Shorthorn breeders of Oklahoma and the southwest should welcome such a sire into this section and should, whenever possible, avail themselves of the opportunity to secure some of the benefits to be secured from his services.

W. L. CARLYLE.

AVONDALE 245144, SIRE, Whitehall Sultan 163573 by Bapton Sultan 163570, out of Imp. Bapton Pearl V48-368. DAM, Imp. Avalanche 2d V60-655 by Mescombe 222700, out of Avalanche V45-786E.

Avondale's Choice is a thick, massive roan with beautiful head and wonderful depth. He is, perhaps, the thickest bull Avondale ever sired. He is of the stamp that can be looked for to make a great sire and his color and general appearance, cannot be beat. This family have produced many noted winners, including the English and American grand champion, Choice Goods. Avondale's Choice is proving one of the greatest sires we ever owned. I cannot help but remark, when I look at the young things sired by him, just maturing to a year old, that he is going to prove another sire, equal to Lavender Lord. His get is marked with that deep, broad, thick fleshed, and with the smoothness that always attracts the attention of a good judge. Our entire young herd will be by him, this fall. I never saw a poor calf sired by him. His calves are too young to say too much about them, but so far, I am entirely satisfied.

Avondale commenced his show record as a calf winning as high as Grand Champion at some of the State Fairs. He made the show circuit for six years and met and defeated all the great bulls of his time and although he never had been conditioned, especially for the Showing, he made a record unequalled in the history of the breed. Avondale's get came in evidence in the Shows as calves in 1908. The calf herd sired by him was undefeated at all the leading fairs that year and were only defeated in the Get of Sire class by the get of his sire, Whitehall Sultan, and since then his get have reigned supreme in all the leading shows of North America.

He was also a sire of great milkers; heifers sired by him have won first three times in the Dairy Class at the International, besides several seconds and thirds. His dam was also an exceptionally good milker, having produced 43 pounds per day when a heifer. His sons are also making good as sires, the get of Double Dale having stood next the get of Avondale twice at the International.

Watonga Searchlight is a bull that hardly needs any recommendation to the breeders of the southwest. He is just the same type as his sire, and his dam is one of the best producing cows on our farm. She being out of Lancaster Bud, the Grand Champion female at World's Fair at Seattle, Washington. He is an exceptionally good sire. The young bull, Pleasant Dale 3d, that is in this sale, was sired by Watonga Searchlight and has been pronounced, one of the best that has been seen in a number of years, by competent judges. A number of his get will be in evidence on sale day and you can see for yourself, how he transmits that wonderful quality, which so distinguishes his family, but when you study his pedigree, you can hardly expect anything else, as all of his sires, on his sire's side, have been persistent winners, in the show ring. He was grand champion at Hutchinson, Kansas, and the Oklahoma State Fair in 1914, of the Texas State Fair of Dallas, in 1915. His sire, Violet Searchlight, was Junior Champion of Colorado and Oklahoma in 1911. His Grand Sire, Searchlight, was a noted show bull, and so well known to the breeders of the southwest, that it is not worth while to give the history of his winnings. His great grand sire, Orange Viscount, holds the distinction of defeating his sire Lavender Viscount, who was 3 years in succession, grand champion of United States.

Pleasant Dale 3d is the calf that has been pronounced by many as one of the best calves of his age. He is thick and deep, with good finish, and is out of Maxwalton's Averno 2nd, a full sister to the mother of Pleasant Dale, H. W. B. Dunlaps herd bull, of Kingfisher, that sold for \$500 in the Oklahoma City sale last spring. When you stop to study both sides of this pedigree and then look at the calf, you do not wonder that he is good, as his ancestors on both sides of the house, have been the greatest producers, we have in the breed. If this bull suits you, buy him, he will certainly reproduce.

WHITEHALL SULTAN 163573, SIRE, Bapton Sultan 163570 by Bapton Victor 163571, out of Moon Daisy V42-704. DAM, Imp. Bapton Pearl V48-368 by Count Lavender 132575, out of Primrose 2d V39-228E.

Pleasant Valley Dale is another young herd bull. I have been offered more for him than he will bring in the sale, but no tears will be shed. His mother, Maxwalton Jealousy 2d, only cost me \$900 as a yearling. Her offspring has sold high for me and have been much in demand. Her full sister, Maxwalton Jealousy's calf, by the same sire, Belle's Searchlight, [who had the honor of heading the American Shorthorn Association's show herd at the World's Fair at San Francisco, and who was selected by the Honorable Frank Harding, secretary of the American Shorthorn Breeder's Association] went to J. D. Freeman of Clovis, N. M., at \$500 to head his herd of Shorthorns. He resembles this calf in every way except that he did not have as much quality. His sire, Belle's Searchlight, is one of the best bulls doing service today. Buy him as cheap as you can. I don't blame you, but remember, the beginner that picks out the herd bull that he likes, and then does not stop on a hundred dollars, to get the bull, is the breeder that makes the success. His sire, Belle's Searchlight, will be here for you to see how you like him, and his next four sires, Avondale, Whitehall Sultan, Count Arthur and Star of Morning, believe were some bulls.

L. Smith, Catoosa, Okla. 8-5-40

Belle's Searchlight is the bull that had the honor of heading the American Shorthorn Association's view herd at the World's Fair at San Francisco, and who was selected by the Hon. Frank Harding, secretary of the American Shorthorn Breeder's Association to head this herd. He had the honor of winning second at this show. As a bull, he is one of the best dispositioned individuals I ever saw and he has always been a good doer and the pride of the Pleasant Valley Stock Farm. I can frankly state, that if there has been one visitor here, in the last three years that did not think as much of this bull as any bull on the farm, he did not make it known to me. As a producer, I know I am making a mistake in selling him. His calves have brought the highest price of any calves I have sold, and there has not been a poor one among them. Any man who wants a red herd bull will make no mistake in buying him. We guarantee him a sure breeder, there are few as good. I have no excuse to offer for selling him, only that I want to make a good sale. I consider that a poor excuse. It is a question in my mind, whether we will feel at home here without him. His mother is one of the best producers on our farm.

Pleasant Valley Lord is the calf that won first most of the State Fairs where he was shown except Iowa where he won second in a class of 26, but among the breeders, he had a host of friends for first place and had I shown at the Kansas City Royal, where the calf he defeated in Iowa beat the first prize calf, I might have got in. I need this calf to win with next year but I also need him to help the average of my sale, so there you are, buy him as cheap as you can. It is no use to say if you like him, they all like him. When you stop to think that he was bred by the old veteran, Thos. B. Murphy of Corbin, Kans., you might know that he would be good.

Cumberland's Gloster is the only bull sired by Cumberland's Best that is for sale this spring, that I know of. Dean Carlyle picked this bull to head the A. and M. Colelge herd at Stillwater, where he has been in use for the past several months. He was the best bull sold in the Sanders sale in 1915. He is a half brother to Cumberland's Type and looks a great deal like him and coming from the Duchess of Gloster family. Cumberland's type, as you all know, has never been defeated in the show ring. 30 times grand champion and one of his sons, 10 months old, at the last Denver show, sold for the neat sum of \$2500. I have always liked this bull and like him yet. I expect him to be a great producer.

Lady Amaranthist is a coming four year old cow sired by Lord Pavonia that was at the head of O. O. Wolf and Sons herd, was a good sire of thick fleshe deattle and coming from that noted Imported Pavonia family, is said to be t he thickest fleshed family ever imported. His dam was sired by Scotland's Charm the sire of Charming Rose 3rd. The mother of this cow, Imported Amaranthist bre dregular until she was 18 years old. I shipped her last fall. Her sons always were sold ahead to somebody's herd. Lavender Lord 2nd her son is at the head of Harry Blake's herd of Duncan, Oklahoma, i s what I consider an exceptionally good bull.

LADY AMARANTHIST WAS BRED TO FAIR ACRE'S SULTAN ON DEC. 27, 1915.

Proud Rose is a great show heifer that will make a show cow next year. She was grand champion at Iowa in 1914. She is the white Fair Acre's Sultan heifer of the two Kilgour heifers that you heard so much of last year. If I did not own Fair Acre's Sultan, you could not buy this heifer at any price. I paid a fancy price for her last year and I am putting her in the sale as an attraction. I am sorry I haven't a good picture of her to show you. On an opposite page you can see her with a group of other heifers, but you will think more of her when you see her on the day of the sale for she is one good one.

SHE WAS BRED ON JANUARY 27, TO AVONDALE'S CHOICE.

Lovely 6th, is one of the best cows in the sale and I think one of the best cows I ever saw. You will like her. She is out of the same Lovely family as Isabella and has never had a calf that has not proven to be a show calf. This is certainly a chance to buy a show and herd bull. She will have a calf at foot by the sale day, sired by Avondale's Choice.

L. C. Whistler, Watonga Okla

Princess Goods is another roan daughter of Roberta's Goods, out of the Acorn family. I coaxed Howel Reece to let me have a few of Roberta's Goods heifers and here is a chance for you to buy one of them. You could not buy her at private sale at all. Many a breeder has made a mistake in selling these kind of heifers, in order to make a good sale and I am frank to state that my opinion is, that I am one of them, but how can we stock up the southwest with good females if we do not sell them. You think this over, Mr. Good Breeder, and I will not do it again. Princess Goods 2nd will be bred to Fair Acre's Sultan by sale day.

Glendale Pavonia 2d is a low heavy set cow out of the thick fleshed Imp. Pavonia family and sired by that noted sire, Scotland's Charm, the sire of Charming Rose 3d. Teddy Morris of the American Breeder made the remark to me in Hutchinson, in the fall of 1913, that if Wolf and Sons had kept Scotland's Charm and some of his daughters, they would have themselves famous as Shorthorn breeders. The Dam of this cow is the dam of Princess Pavonia and then coming from a sire of this sort, I believe is enough to say.

Gay Lady 4th is one of the best young cows in the sale. This is the cow that Ed Silliman, representative of the American Shorthorn Association, bought for me last spring at the Carpenter and Ross sale. I have three reasons for putting in this cow in the sale. To help the sale. To scatter good females in the southwest and to get the money.

SHE WAS BRED JAN. 29, 1916 TO FAIR ACRE'S SULTAN.

Violet Leaf is one of those big fine looking double deckers. In the spring of 1913 soon after she was fresh, the amount of milk she gave in one day, was weighed and it weighed 56 pounds or 7 gallons. She is of that noted Violet Bud family that produced Lord's Violet that was undefeated in class in 1914. She will likely have a calf at foot, by Avondale's Choice, by the sale day.

STARLIGHT 117457, SIRE, Ducal Crown 97149 by Pro Consul 94510, out of 30th Duchess of Gloster V33-290E. DAM, Sensation V35-409 by Scotland's Hero 67651, out of IMP. Day-break 4th V31-455.

DUCAL CROWN, SIRE, Pro Consul 94510 by Fuedal Chief 92299, out of Violet Bloom V27-362E. DAM, 30th Duchess of Gloster V33-290E by Chancellor 47568, out of Duchess of Gloster 21st V33-290E.

Duchess of Gloster 4th is a big fine red Duchess of Gloster by the good sire Iowa Victor by Imported Prince Oderick. Imported Prince Oderick is a very noted bull and a good sire. This cow has been one of the best producers in the herd and is certainly on as good a foundation as you can get them.

The Cruickshank Duchess of Gloster Family- is perhaps one of the best known families among the Cruickshank Short Horns throughout Canada and the United States. Duchess of Gloster 12th in above pedigree was imported in 1871, and she has been the foundation of a great number of Short Horns, that, for milking and feeding qualities, can scarcely be equalled in any country. Perhaps no Scotch family has been more prolific, and it is safe to say that none has done more good to the breed and their owners.

SHE WAS BRED JULY 12, 1915, TO FAIR ACRE'S SULTAN.
